

20 CALAS DE SANTA EULALIA

CALAS DE SANTA EULÀRIA

ruta 20

MUNICIPIO

SANTA EULÀRIA DES RIU

DESCRIPCIÓN

Estamos ante un precioso recorrido eminentemente costero que, partiendo de Santa Eulària hacia el Norte, nos llevará primero a conocer algunas de las renombradas calas y, luego, algunos de los caminos que comunican muchas de las poblaciones entre sí y que discurren por pintorescos paisajes de interior.

A excepción de una primera parte de asfalto, en la que se atraviesan algunas urbanizaciones y zonas habitadas, la ruta posee un carácter marino típico de un ambiente mediterráneo.

Durante el recorrido visitaremos lugares que, de no ser por la climatología, nos invitarán a un refrescante baño, como la playa de Es Canar, Cala Nova, Cala Llenya, Cala Mastella, Cala Boix y la pequeña playa de Pou des Lleó. Además, aventurándose a explorar, en algún recodo del camino se pueden encontrar otras calas no tan conocidas y más inaccesibles, que seguro no nos dejarán indiferentes. También es una ruta perfecta para visitar lugares como la zona turística de Es Canar y el pueblo de Sant Carles que nos tentaran a adentrarnos en ellos y buscar un merecido refrigerio.

Sin duda, merece la pena acercarnos a la zona de Pou des Lleó, donde podemos visitar la Torre d'en Valls y disfrutar de una fantástica ruta sobre acantilados junto al mar y con vistas a la isla de Tagomago, con tan sólo desviarnos un par de kilómetros del itinerario marcado.

Tras enfrentarnos a la subida al Puig des Molí y, tras pasar por Sant Carles, regresaremos a Santa Eulària, habiendo recorrido algo más de treinta kilómetros de una bonita ruta de nivel medio.
